Integrated Global Solutions

**WHAT IS THE MOST IMPORTANT  
FACTOR FOR A SUCCESSFUL DELIVERY?  
PLANNING? STRUCTURE? INVESTMENT?**

# WHAT REALLY MAKES THE DIFFERENCE ARE THE PEOPLE.

Qualified people.

People with extensive experience in logistics.

People committed to the customers.

People that enable SOLUTIONS.

# A TEAM THAT MAKES ALL THE DIFFERENCE TO YOUR CUSTOMERS.

The major distinguishing feature of LOGLINE Integrated Global Solutions is our team of experts, who are highly knowledgeable of the procedures of airlines, shipowners, forwarding agents, and general and bonded warehouses, which ensures top-notch logistics capable of handling any challenges.

# UNPARALLELED CUSTOMER SERVICE, DELIVERY AGILITY AND SECURITY.

The expertise of our staff allows us to provide integrated solutions tailored to your needs, whatever they may be, thus ensuring the delivery of what you actually contracted anywhere in the world. While being assisted by our professionals, you can rest assured that your deliveries will be made in a safe and timely manner and with the best cost-benefit ratio.

# LOGLINE INTEGRATED GLOBAL SOLUTIONS

*We are large enough to compete with the major players in the freight industry, and small enough to be flexible and adapt to the specific needs of each customer.*

LOGLINE is a Multimodal Transport Operator (registered with the National Agency for Ground Transportation under No. 0912-0718) specialized in the development of global logistics solutions that facilitate operations through a multimodal approach. What is the most important factor for a successful delivery?

Our company, which is 100% Brazilian, is the result of the combination of experiences acquired in various foreign trade segments and the challenge of serving with excellence customers of all sizes and from the most varied industries, always optimizing, in an intelligent manner, the management of all stages of the process, and therefore reducing the costs of logistics.

## A LOCAL COMPANY WITH A GLOBAL VISION.

Headquartered in the city of Santos, state of São Paulo, and with business units in strategic locations throughout Brazil, as well as sales agents in all continents, we guarantee the global reach of our services, making it possible for our customers to conduct business anywhere in the world, even in the most remote location.

**Santos/SP - São Paulo/SP - Pindamonhangaba/SP - Rio Claro/SP**  
**São José dos Campos/SP - Itajaí/SC - Cabedelo/PB - Nova Lima/MG**

# OUR HISTORY MAY BE SHORT, BUT IT IS FULL OF ACHIEVEMENTS.

**2014 - LOGLINE is founded in the city of Santos.**

**2015 - LOGLINE opens its first branch in the city of São Paulo.**

**2016 - LOGLINE launches start-ups in the cities of Itajaí, state of Santa Catarina; and Pindamonhangaba and Rio Claro, state of São Paulo.**

**2017 - LOGLINE becomes a member of the IFLN Network, establishing a global footprint in more than 100 countries.**

**2018 - LOGLINE is registered as an MTO with the National Agency for Ground Transportation, and authorized by the Federal Revenue Service to carry out transport operations under a customs transit regime.**

**2019 - The company becomes a member of JCTrans, a global network that connects 70,000 freight forwarders in 200 countries, and opens its first branch in the Northeast of Brazil, in the town of Cabedelo, state of Paraíba.**

**2020 - New branches in Nova Lima-MG and São José dos Campos-SP.**

# LOGLINE: SHORTENING DISTANCES AND LOWERING COSTS.

Many companies manage their customers' foreign trade operations, but only LOGLINE constantly seeks solutions that optimize, both in terms of time and cost control, each stage of a route within or outside Brazil, by following integrated planning.

Each solution designed by our staff is tailored to the customer's needs, with a focus on providing economy of scale and delivery agility, adding value to the product.

At LOGLINE, the entire sequence of operations is planned after an in-depth study of the production and sales chain, creating distinguishing characteristics that help your company get ahead of competitors.

# WHATEVER YOUR NEED MAY BE, WE HAVE A SOLUTION.

We are more than a multimodal transport operator. In addition to integrating all stages of logistics, we also manage operations from origin to destination, through a work system that complies with the most stringent international standards in our industry.

Whatever your logistics challenge, LOGLINE offers reliable on-demand solutions in all continents.

# WHY HIRE LOGLINE?

We can answer this question with a single word: **RESULTS**.

We have solid knowledge, relationships and a service portfolio which, together with our solutions, allow us to add value and achieve the results intended by our customers. Once your logistics is integrated with our modal options, your company starts to benefit from the following:

- **Experts with significant experience in all aspects related to vertical integration of logistics;**
- **A focal point for your operations, avoiding deviations or non-compliances;**
- **An advantageous benefit package when planning logistics in an integrated manner.**

# INTERNATIONALLY RECOGNIZED QUALITY AND EFFICIENCY.

The excellence in our work has led us to achieve a number of certifications that attest the efficiency and strength of our operations. The certifications we have been awarded by the most well-known international institutions prove that you will make the right choice by appointing LOGLINE to meet your logistics needs.

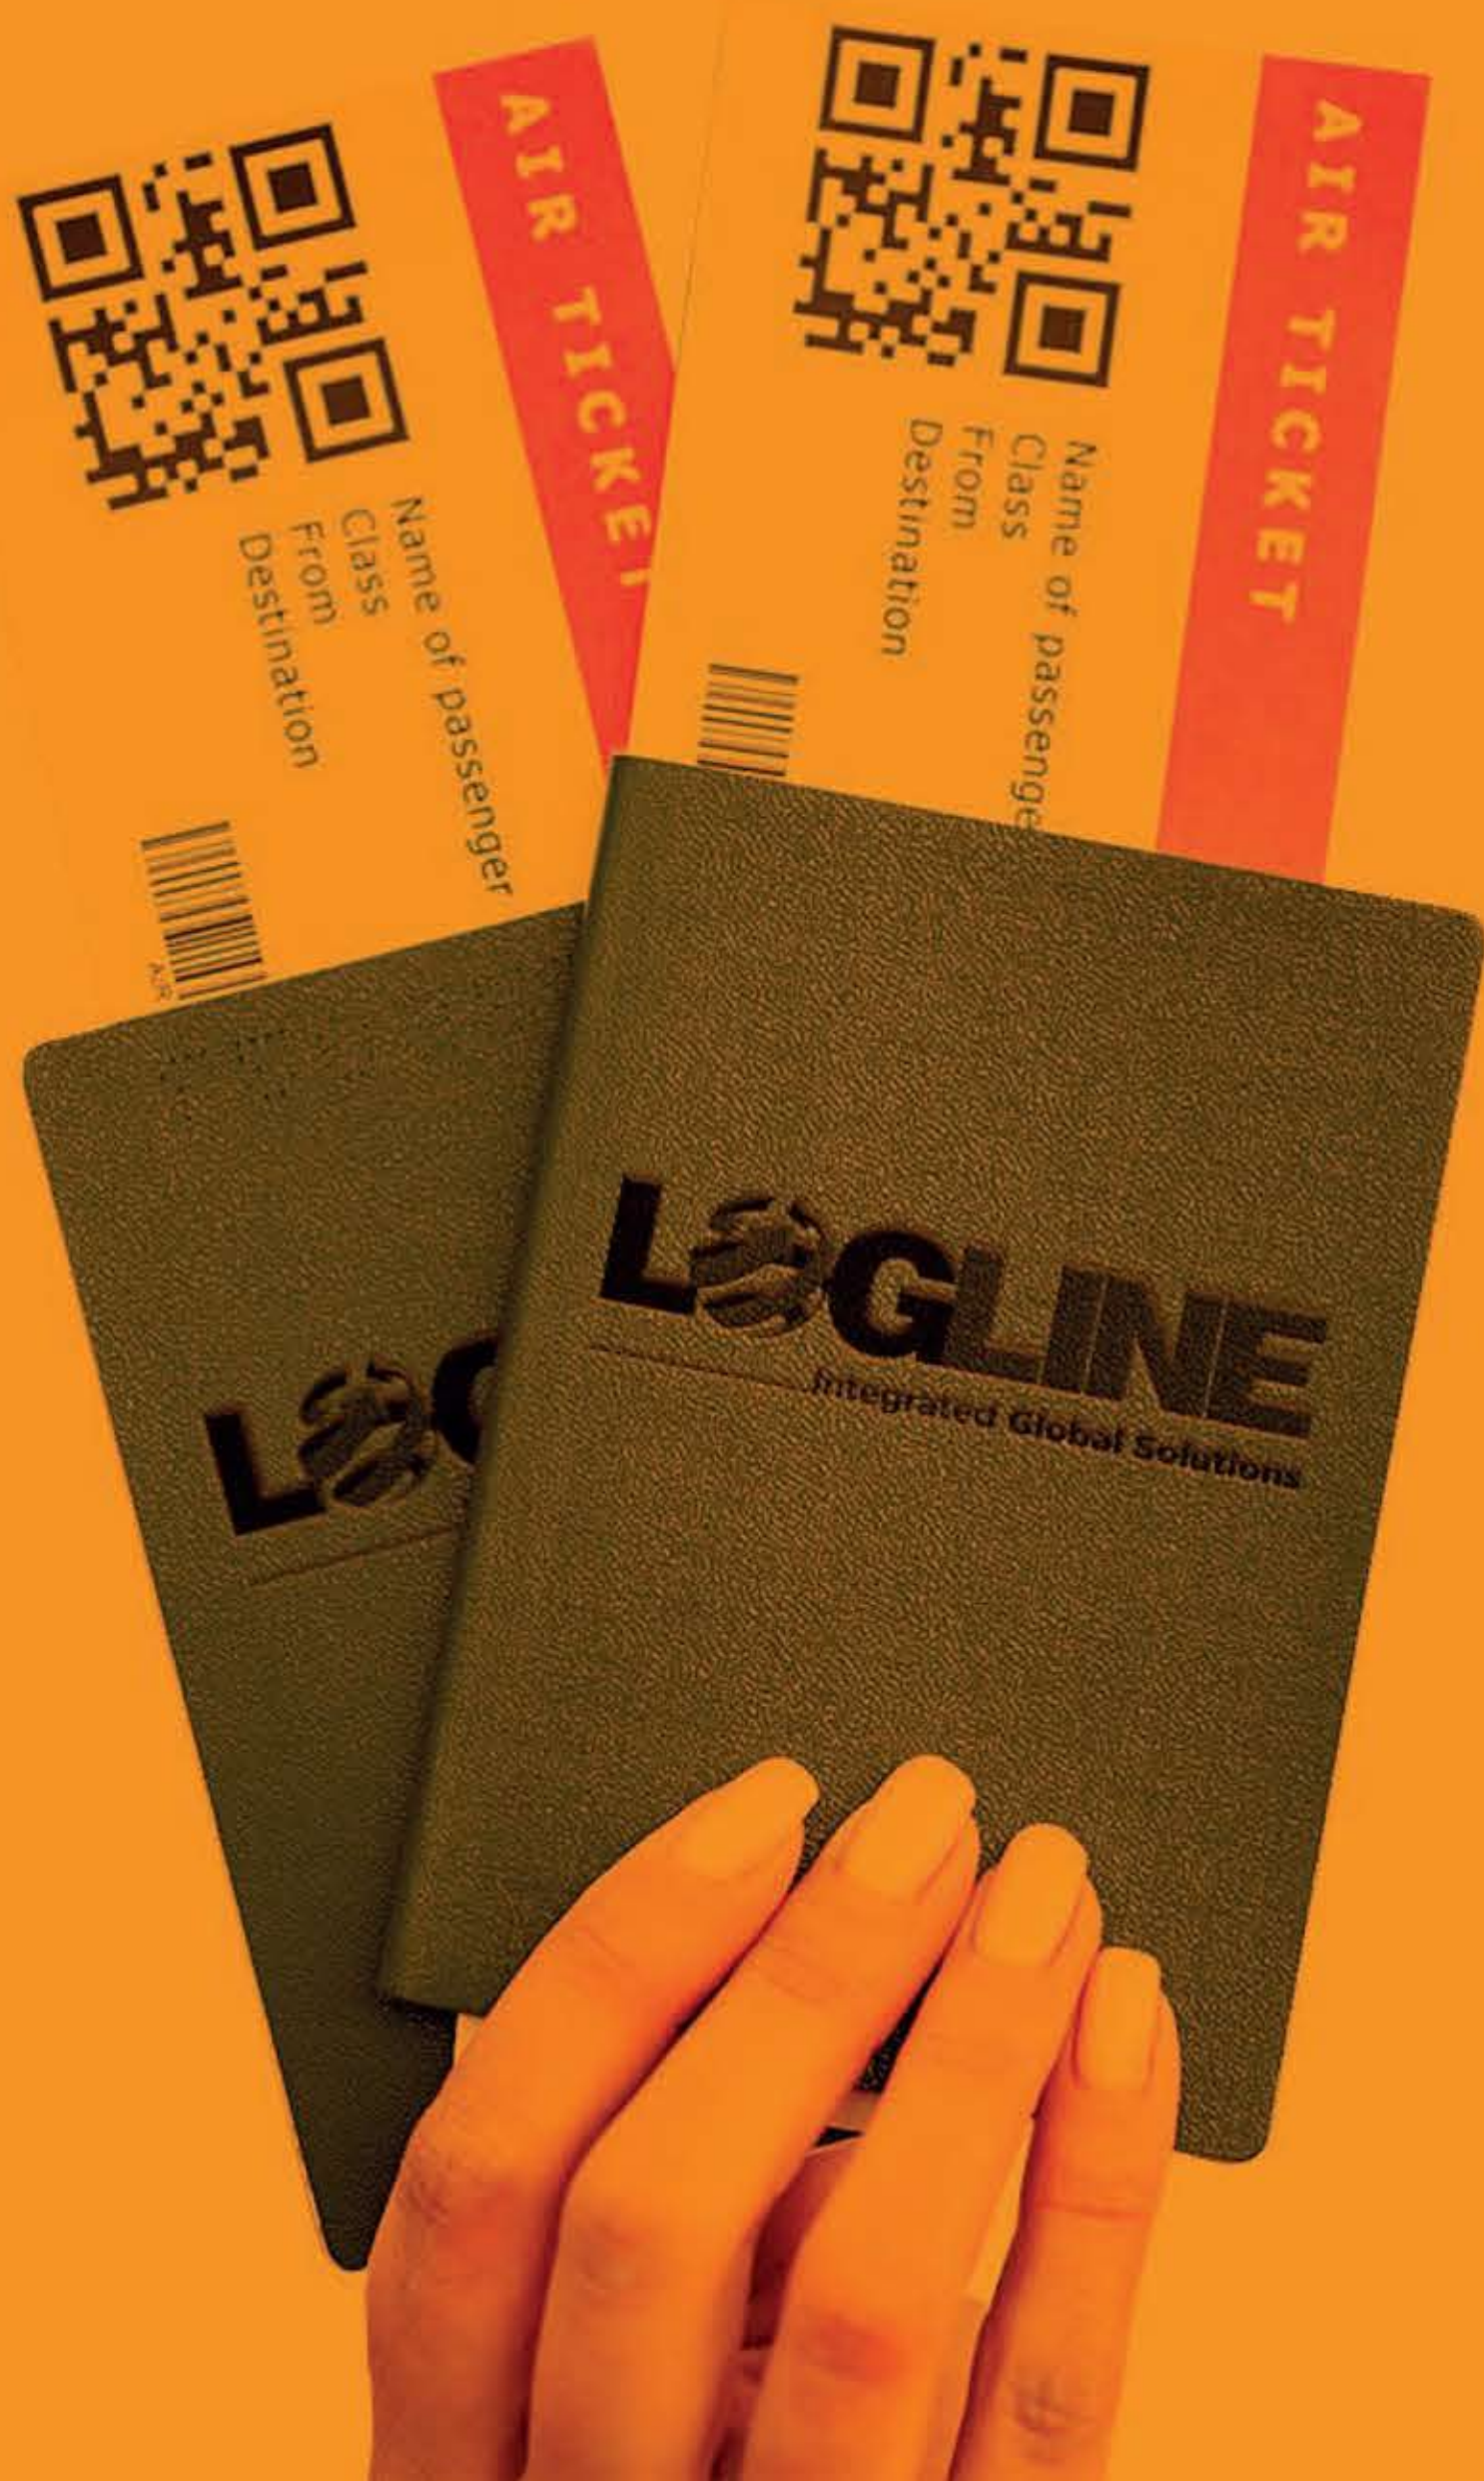

IATA is the English acronym for International Air Transport Association or International Air Transport Association, in Portuguese. Created over 60 years ago by a group of airlines, with the aim of representing them in all matters related to aviation. As an IATA accredited agent, Logline is globally recognized in the international air transport industry for best practices and with access to more than 280 member airlines using its own standardized sales contract (AWB).

Dun & Bradstreet is a world leader in commercial information, operating in the market for more than 170 years with a presence in 220 countries and more than 240 million companies evaluated in its database.

LOGLINE is a member of the institution through DN: 914741392, attesting its suitability and its credit capacity, through a modern system of global financial analysis.

ISO 9001 certification is an international standard that works with the organization's quality management. This LOGLINE certification represents national and international recognition for the quality of our work, since ISO 9001 ensures good management practices and relationships between customers and suppliers. In addition, it enables greater development of employees, serves as a lever in the search for total quality, provides conditions for greater competitiveness in the market, process optimization and cost reduction.

Logline's participation in the main international market events.
